#### **REMARKS OF MISS NORTH DAKOTA 2019 & 2020 HALEY WOLFE**

Exactly six hundred and seventy days ago I was crowned Miss North Dakota 2019. Since that day I have been going full speed ahead making the most of my time as Miss North Dakota. I have traveled to places I have always wanted to go, been on TV more times than I can count, represented North Dakota at the Miss America competition, traveled over 55,000 miles across this great state and spoken to over 20,000 North Dakota students of all ages. However, my biggest accomplishment of all was sharing my story on the Miss America stage. Every year Miss North Dakota picks an organization, social issue, or topic that serves as the focal point of her speaking engagements. This is known as a social impact initiative. When I first began my journey to becoming Miss North Dakota, the choice for my social impact initiative was an obvious one. I would now like to take a minute to pose a question to our representatives in this session. Do you know what is the second leading cause of death for youth in North Dakota? Suicide is currently the second leading cause of death for individuals between the ages of 10 to 24 in our state. Prior to the pandemic, 18.8% of North Dakota high school students reported they seriously considered attempting suicide in 2019. The astonishing part of these statistics is not the age range or the high percentages, it is the fact that suicide is 100% preventable. I first learned what suicide was at the age of ten. Like many who are a part of the mental health community, the reason I advocate for this cause is because I have a personal connection to it. At the young age of 18 my cousin Derick died by suicide. He was going into his senior year of high school, gave it his all on the football field, and was a hard-working farm kid helping his dad with crops and cattle. I want to say I did not ever recall him ever being upset, sad, or complaining about life. Yet before anyone could identify how much he was struggling, he was gone. We missed the warning signs and many individuals in my family did not have the knowledge or resources to help. That is why, instead of advocating for this cause alone, I have partnered with the #BeThe1To movement. #BeThe1To is a social movement created by the National Suicide Prevention Lifeline. The goal of this movement is to create an open environment to discuss and promote suicide prevention on social media. This project's main objective focuses on switching from a reactive approach to suicide, to a preventative approach by laying out action steps we can all take when we see someone who is struggling. I want to emphasize the importance of action steps. The topic of suicide is already one that many feel uncomfortable speaking about and often do not know how to address. This movement lays out five simple steps on how you can begin that conversation and find resources to improve mental and behavioral health. It starts by asking one simple question of "Hey, are you ok?" or "Are you having thoughts and feelings of suicide?" Next, it is important to keep the person safe from themselves and what is causing them so much pain in their life. After initiating that conversation, be ready to be there for them and support them whether they are ready to talk or may need a little more time. You can help them connect to resources available and others who share their same struggles and stories. Finally, follow up with them often so they know that they are always supported. I myself was hesitant to discuss the topic when I first chose it as my social impact initiative. I often felt that people would shy away from listening. In all of my experience these past two years, I have come to find that my hesitation and concerns were proven wrong. Many across the state see a need to discuss prevention and resources with our youth, and I was welcomed into many communities and schools. It is often said that everything happens for a reason and I do believe that this was the year I was meant to be Miss North Dakota. Fast forward to March of 2020 when we all went into isolation, nearly 70% of North Dakotan's reported that the pandemic has impacted their mental health. Having traveled across most of the state by then, mostly into the more rural communities, I was fortunate to have educated many students on the action steps needed to improve suicide prevention efforts. Unknowingly, I was able to give them the resources they needed to identify the warning signs in others and in themselves. And I was also not alone in the effort. From state grant money to sharing resources available such as FirstLink, North Dakota continues to make suicide prevention a priority and for that I say thank you. Closing out my time here today the same way I did at the Miss America competition, I would like to share with you all a phrase someone once told me. Remember that it takes a village to raise a child, but it also takes a village to save a child. Suicide is preventable. Thank you and thank you for your time today.
